You may have watched the game on television and thought, "I couldn't slide up and down a sheet of ice like that!". Well, you don't have to! We provide special rubber-soled curling shoes for novice curlers so that you have a firm grip of the ice and don't slip. Our coaches show beginners how to throw the stones using a static delivery, which does not involve any sliding. And for those with a bad back, or can't bend down to deliver the stone, we have special curling cues that allow you to push the stone along without stooping. Yes - we have thought of everything to get you started!
